From patients: name, email, contact details, health questionnaires, symptom forms, insurance details, and appointment history.

4. Patient Health Information

Subscribers (clinics or practitioners) are the data controllers. Ruana acts as a data processor. Any patient health information (e.g., questionnaires, SOAP notes) is entered by the patient or practitioner. Subscribers remain solely responsible for compliance with privacy and health data laws (HIPAA, GDPR, PHIPA, or equivalent).

5. How We Use Information

We use information to provide and maintain the platform, facilitate scheduling, reminders, and billing, enable practitioners to manage patient care records, process payments, provide customer support, comply with legal obligations, and improve services. We do not sell or rent personal information.

Ruana uses Google Analytics, Google Ads, Facebook Ads (Meta Pixel), and cookies for analytics and advertising. Cookies help us understand usage patterns and improve the Service. Users may control

cookie settings through their browser. We do not use session recording or web beacons beyond basic tracking.

8. Cross-Border Data Transfers

Data is stored on AWS. By default, data is assigned to the region nearest the user's timezone. Users may request EU, US, or Canada storage. In some cases, third-party services may process data outside your selected region with safeguards such as Standard Contractual Clauses (SCCs).

9. Data Retention

Data is retained for the duration of the subscription. After account closure, data is retained for 90 days to allow export, then permanently deleted unless required by law. Backups may persist temporarily for disaster recovery but are also deleted after retention periods expire.

10. User Rights

Depending on your jurisdiction, you may have the right to access, correct, delete, restrict, or object to processing of your data; request data portability; withdraw consent; or file a complaint. Subscribers manage patient data access requests. Ruana will support clinics in fulfilling these obligations under GDPR, HIPAA, PHIPA, or equivalent laws.

11. Third-Party Service Providers

We use trusted providers: AWS (hosting), Intercom (support), Stripe (payments), Cronofy (calendar sync), Twilio (SMS and transactional email). These providers only process data as needed and are contractually bound to protect it.

12. Breach and Security Notifications

Ruana maintains audit logs for system access, security events, and breaches. In the event of a security incident involving personal data, we will notify affected Subscribers and regulators as required by law.

13. Security

We use administrative, technical, and physical safeguards including encryption, secure AWS infrastructure, role-based access, and audit logging. Security practices are regularly reviewed to align with industry standards.

14. Children's Privacy

Ruana is not intended for individuals under 18 years of age. Any minor patient data must be entered and managed by the practitioner with parental or guardian consent.
